

The 8" Round Fieldstone Tower

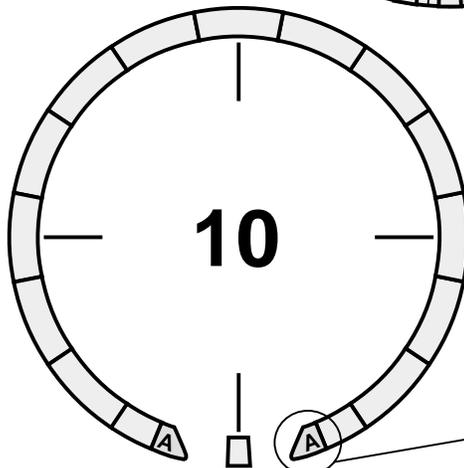

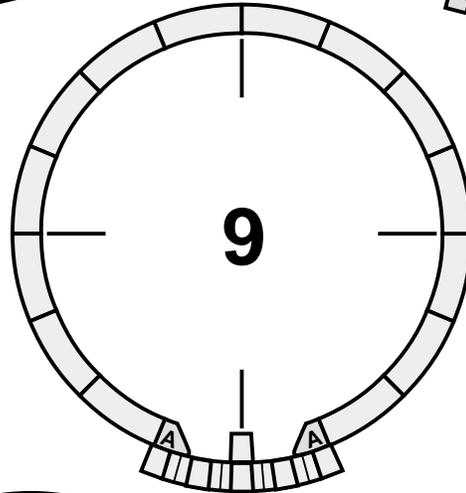

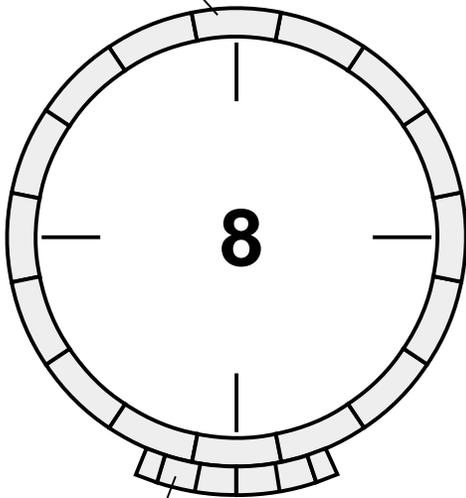

You will need to cast the #78 Round
Tower mold 26 times to complete this tower.

The 8" Round Fieldstone Tower

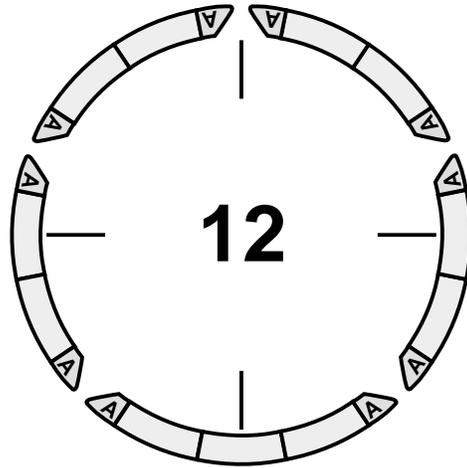

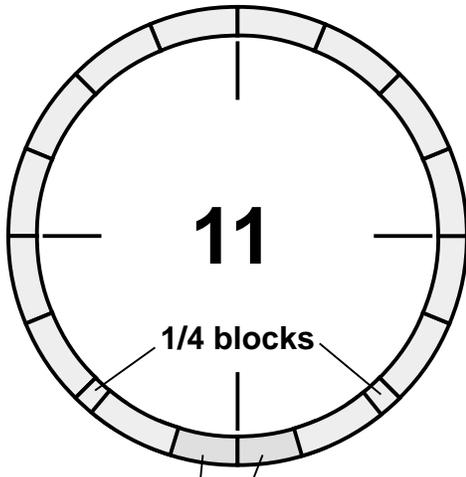

Do not glue row 8 onto row 7. The tower separates at this point for easy painting of the inside.

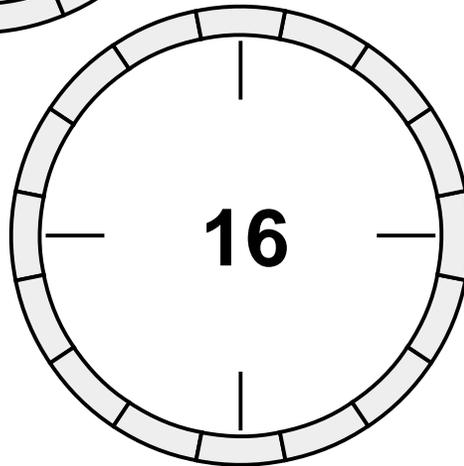

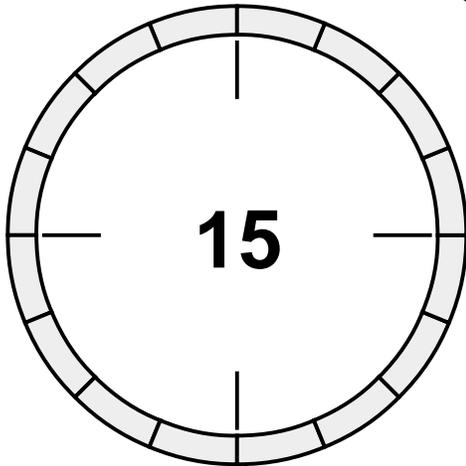

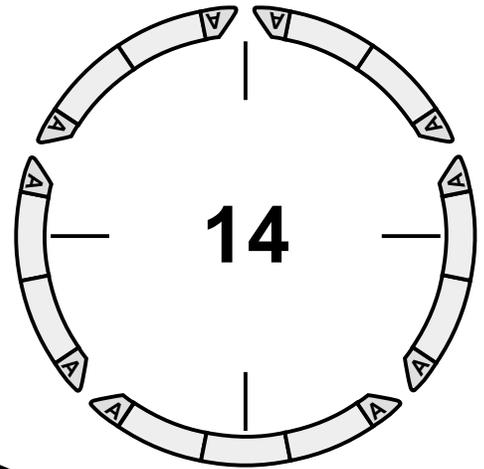

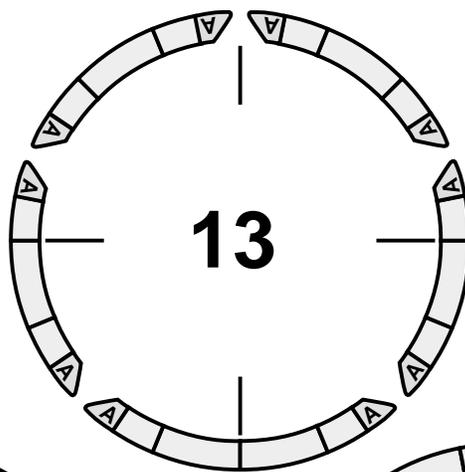

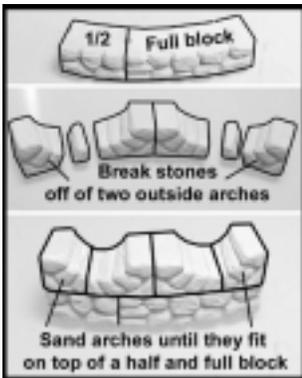

Broken arrow slit blocks on each side

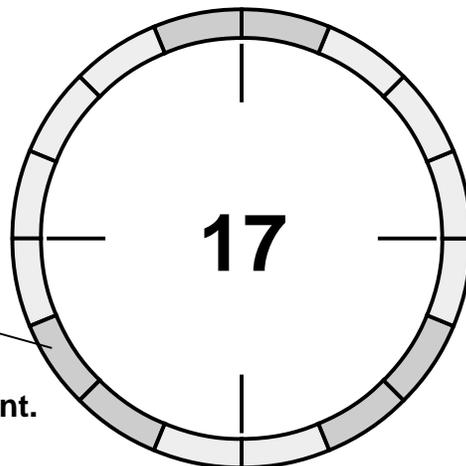

The 8" Round Fieldstone Tower

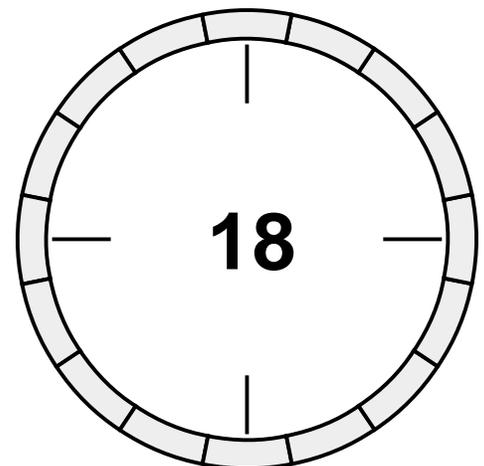

2 modified arches

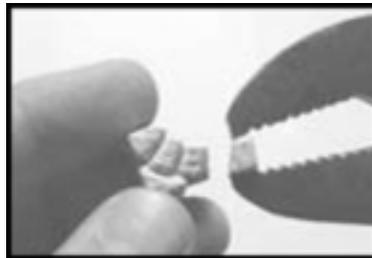

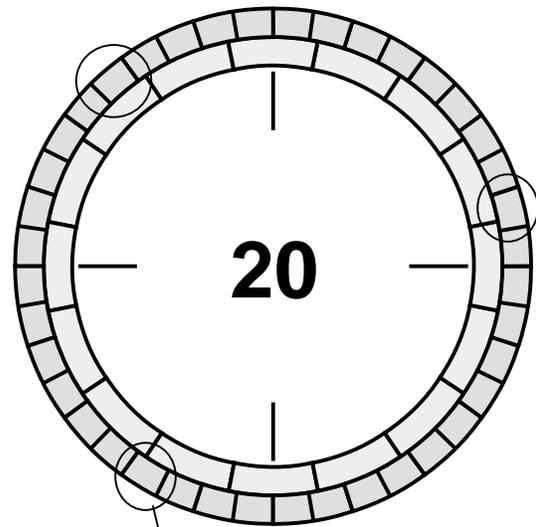

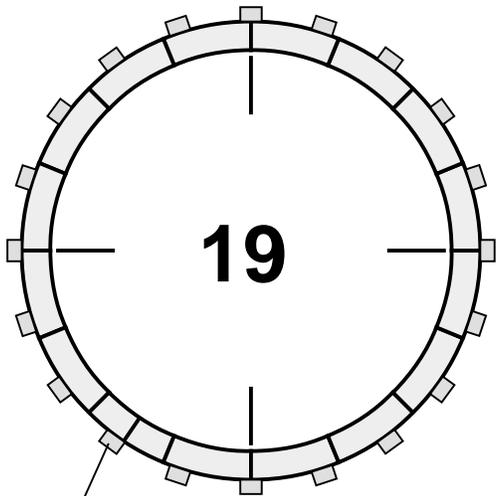

Only glue the shaded blocks down. Glue the lighter blocks to each other but do not glue them down.

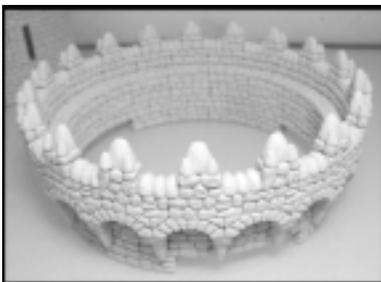

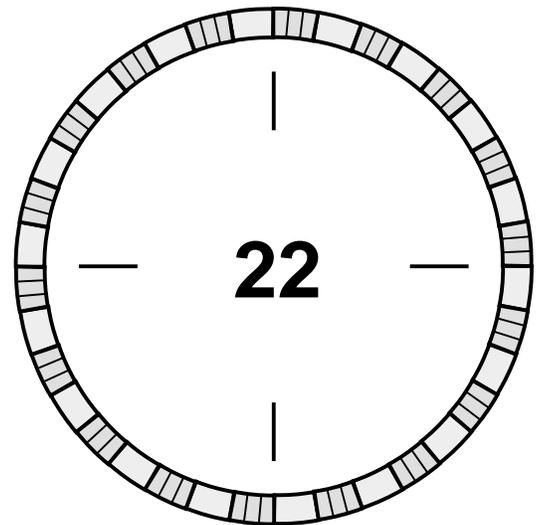

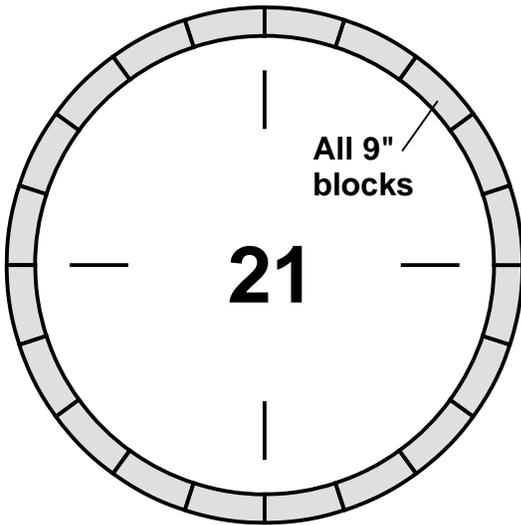

This will allow the tower to come apart at this point.

The 8" Round Fieldstone Tower

Break one stone off of 3 random arches around the outside. This will help the row of arches to fit around the outside of the tower.
